

RADIOLOGIC TECHNOLOGY PROGRAM MISSION

The Radiologic Technology Program is an integral part of the School of Health Sciences. The program strengthens the community by being a model of inclusive and transformative education in radiologic sciences. We engage and support students in innovative educational opportunities leading to meaningful employment. The program offers a curriculum that results in clinical competence, high-quality patient care, critical thinking, communication skills, personal growth and professionalism. Faculty foster positive clinical affiliations that promote lifelong learning throughout the student's professional career.

RADIOLOGIC TECHNOLOGY PROGRAM GOALS AND STUDENT LEARNING OUTCOMES

- 1.** Students will be clinically competent
 - Students will utilize proper radiation protection practices
 - Students will produce diagnostic quality radiographs

- 2.** Students will demonstrate effective communication skills
 - Students will effectively summarize procedures to patients
 - Students will successfully communicate with clinical staff

- 3.** Students will exhibit critical thinking
 - Students will analyze radiographic image quality
 - Students will modify exams for unique situations

- 4.** Students will model professionalism
 - Students will exhibit integrity and confidentiality
 - Students will model commendable professionalism
