## HIP Impact Summary for Study Abroad 2017 - 2020

Disaggregated data displaying the demographic change in Study Abroad programs after implementation of the high-impact practice (HIP) funding.

### High-Impact Practice Funds

President Huftalin has set aside dedicated funding to support student's participation in high-impact practices at Salt Lake Community College. The Study Abroad office has leveraged some of this funding and other funding to provide scholarships to increase participation in our programs and broaden the diversity of our students to help us achieve equity in participation.

### Student Demographics

The below graphs show the participation demographics from 2017 to 2020 broken down by gender, race and first-generation status.
