

# Impact Summary

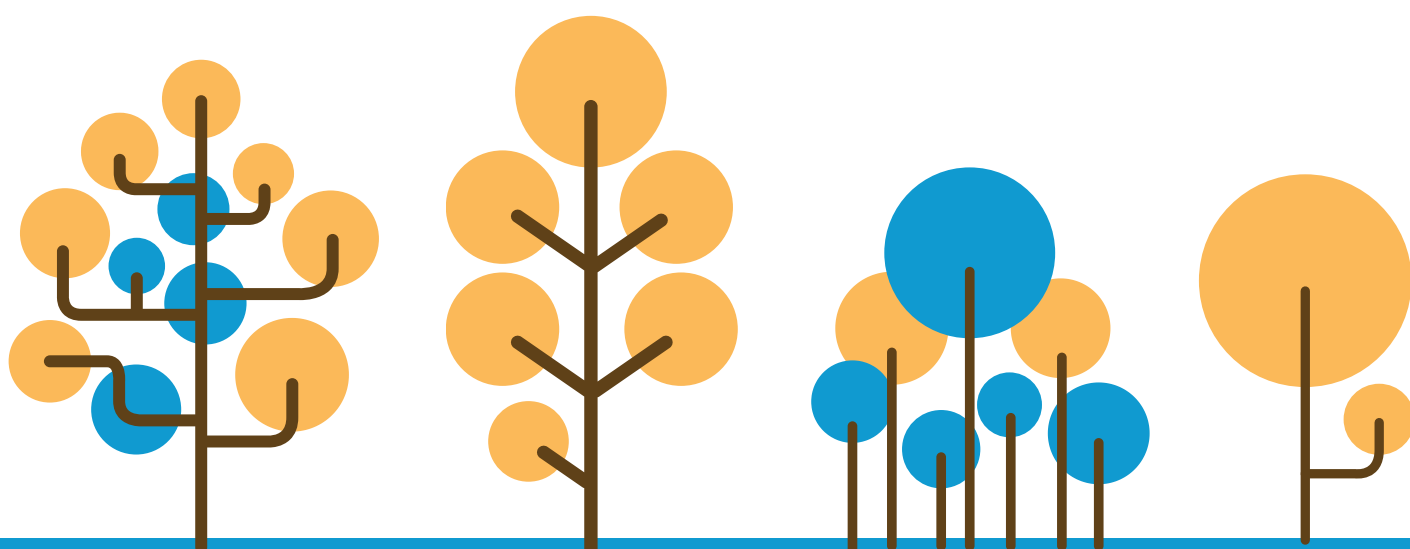

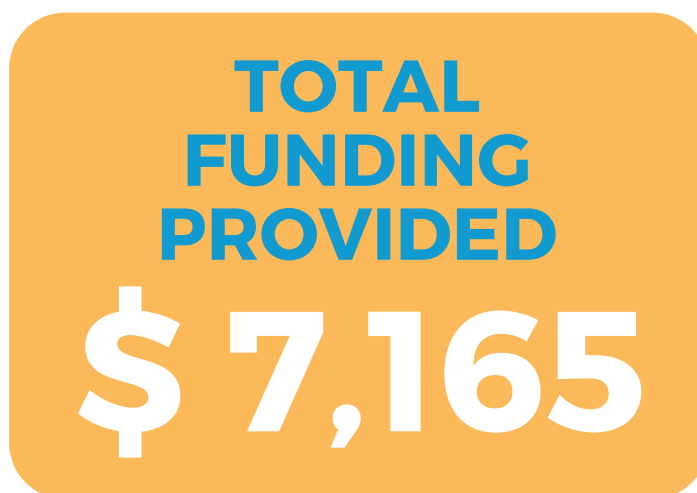

## Service-Learning

Service-Learning supports the achievement of course learning outcomes and experiential engagement through service opportunities with nonprofits, governmental, or educational community partners. Service-learning incorporates civic literacy and critical reflective thinking into academic coursework while also addressing community-identified needs.

## Engaged Departments

Engaged department designation takes course designation to the next level by helping the department as a whole increase their civic engagement efforts. Departments strive to build a comprehensive and strategically planned culture and curriculum incorporating civic literacy, critical thinking around social issues, diverse perspectives, civic action, and a shared commitment to community partners throughout the major or academic program.

# Civic Faculty Fellows

Faculty fellows is a distinction for civic-minded faculty members that strive to promote high-impact practices (such as service-learning), boost engaged department efforts, and increase community engagement efforts across the college.
